Together, we are building the future of Canada’s health care system.
A MESSAGE FROM OUR CEO,  
John Gallinger

Strong client and stakeholder focus is a key component of our stewardship of the application, selection and match system.

CaRMS began 2020 with a continued focus on bringing value to the medical education community through our unique knowledge and expertise, and by doing all we can to make our clients’ match-related jobs easier. This strong client and stakeholder focus is a key component of our stewardship of the application, selection and match system.

Of course, in March the year took a sharp turn none of us expected. The COVID-19 pandemic brought with it challenges and uncertainty for all of us. Our clients’ and stakeholders’ needs changed, and our focus shifted to meet these rapidly evolving requirements. From the initial stabilization phase in which we worked to ensure the continuation of the match year, through our hands-on support of our clients as they adapted to the changed environment, to our ongoing efforts to sustain the system through the duration of the pandemic—we have all been in this together.

The results of these collaborative efforts speak for themselves. Through innovation and flexibility, we have been able to adapt to our new realities and ensure the important work of the medical education community can continue unhindered. CaRMS has never been prouder to support our passionate and dedicated clients and stakeholders. Through our participation on committees that shaped how the year unfolded, by leveraging our expertise and platform to design solutions to streamline your work processes, and by adapting and expediting our own processes, CaRMS has been—and continues to be—here for you every step of the way.

What the past year has also demonstrated is the resiliency of the postgraduate medical education application, selection and matching system itself. Despite all the changes that have occurred in the leadup to the 2021 match year, the system has been able to adapt to ensure it continues to work for applicants, faculties, funders and health consumers.

CaRMS celebrated 50 years as the steward of the application, selection and matching system in 2020, and we can tell you that this flexibility isn’t new—it is just the system’s most recent test. Over the past five decades, the system has undergone countless changes in response to an ever-evolving policy, educational and technological landscape. You can read about some of these historical shifts in an article we wrote for the Canadian Medical Education Journal (CMEJ) earlier this year. One thing we can promise will never change is CaRMS’ commitment to working with our clients and stakeholders to ensure the system we oversee continues to evolve to meet the challenges and opportunities that lie ahead.

On behalf of the entire CaRMS team, I would like to thank you for the privilege of working with you throughout our 50th year supporting and serving the medical education community. We are looking forward to marking another special milestone with you in 2021—the 50th anniversary of the first CaRMS residency match in 1971.
CaRMS marked 50 years of serving Canada’s medical education community in 2020. In a year characterized by unpredictability and unexpected challenges, I’m proud to say that we were able to mark this milestone doing what we do best—supporting our clients and stakeholders.

The organization’s ability to navigate uncertainty and clear the hurdles we encountered this year is in no small part due to the stewardship of a Board of Directors that is fully engaged, knowledgeable and passionate about their work. Prudent financial management and contingency planning made certain that CaRMS was positioned to provide stability, support, and solutions to our clients, stakeholders, and partners as they adapted to rapid changes in our world.

The benefit of CaRMS’ unique governance model, which draws on the expertise of a broad base of medical education stakeholders, is that we are able to ensure input from all perspectives in our policies, procedures and operations. CaRMS’ stewardship of the match, and all of its supporting services, are guided by these diverse perspectives alongside the organization’s founding values of safety, objectivity, fairness and equity.

One way that CaRMS upholds these core values is through the Match Violations Policy. While CaRMS has had a Match Violations Policy to enforce the obligations set out in applicant and faculty match contracts since 2005, this policy was completely refreshed in 2020. Thanks to a joint committee including both learner and faculty representation, we were able to ensure that those most directly affected by the match violations process had a direct role in shaping its current iteration. New educational resources available on the CaRMS website help explain how the Match Violations Policy protects the integrity of the match and helps make everyone’s match experience a safe one.

I invite you to read through the rest of our Annual Report for other key highlights from the past year. From engagement and outreach to improve the CaRMS client experience, through to technological enhancements and process improvements to our systems and services, the CaRMS team has been working hard to add value in every area of our mandate.

On behalf of the CaRMS Board of Directors, I would like to sincerely thank the CaRMS team and our clients and stakeholders for their work and collaboration over the past year. My reflection as 2020 draws to a close is a positive one—our community has proven itself to be strong, united and resilient. I look forward to what we can achieve together in 2021.
The Canadian Resident Matching Service (CaRMS) is a national, independent, not-for-profit, fee-for-service organization that provides a fair, objective and transparent application and matching service for medical training throughout Canada.

CaRMS plays a highly valued role in supporting and enhancing the excellence of the Canadian health care education system and strives to ensure all of its services meet the highest standards for accuracy, transparency, fairness and equity.

**Core Purpose**
Our core purpose is to facilitate career decision-making by medical learners based on the greatest compatibility of preference between medical learners and programs within faculties of medicine.

**Mission**
Our mission is to serve as an independent, arms-length provider of a client-centred, fair, transparent, and equitable matching service for medical education in Canada.

**Vision**
As a trusted partner in the medical education community in Canada, our vision is to provide a matching service that meets the needs of its clients and supports the health-care system in meeting the needs of Canadians.

**Values**
CaRMS will conduct all of its affairs according to the following values: fairness, objectivity, reliability and transparency.
GOVERNANCE AT CARMS

CaRMS is governed by a volunteer Board of Directors selected by election or appointment. CaRMS’ member organizations recommend directors and the CaRMS Governance Committee prepares a slate of nominations for Board vacancies, which are presented to the Board for approval and subsequently for member organization approval at the annual members’ meeting.

Once elected or appointed to the Board, directors with their unique perspectives from their member organizations act in a fiduciary capacity on behalf of CaRMS in their deliberations and in their decisions.

MEMBER ORGANIZATIONS

- Association of Faculties of Medicine of Canada (AFMC)
- Canadian Federation of Medical Students (CFMS)
- College of Family Physicians of Canada (CFPC)
- Canadian Medical Association (CMA)

A YEAR IN REVIEW

ENGAGEMENT WITH THE MEDICAL EDUCATION COMMUNITY

This year CaRMS remained committed to working with our partners, clients and stakeholders. Understanding their successes, challenges and needs continues to be the driving force behind everything that we do.

The COVID-19 pandemic resulted in many changes for the medical education community throughout 2020 and CaRMS remained committed to supporting our clients and stakeholders as they adapted to these new realities. Our business continuity readiness ensured that CaRMS provided uninterrupted match operations. Through our participation on various committees that shaped how the year unfolded, we leveraged our expertise and platform to design solutions to streamline our clients’ and stakeholders’ processes, while adapting and expediting our own.

Through the AFMC Resident Matching Committee (ARMC) and several subcommittees, CaRMS collaborated on the development of a compressed 2021 R-1 match timeline to ensure key milestones can be met. We worked with stakeholders to establish improvements in processes and technology to assist clients with their work efforts in a new reality.

CaRMS rolled out a new Match Violations Policy (MVP) for all matches for the 2021 match cycle. The policy provides enhanced clarity around the violations process and outlines the reporting, review, and appeals process. CaRMS also created new educational resources to support the policy including, a series of short animated “case study” videos showcasing some of the most common types of violations for both applicants and faculties, frequently asked questions and other key resources and helpful information in a downloadable package.
After much discussion and consultation, CaRMS moved to make the MINC a mandatory field in the CaRMS Online application starting in the 2021 match year. CaRMS respects applicants’ ownership over their data, and protection of these rights remains enshrined in our clear and transparent consent processes.

CaRMS continued to work closely with our Family Medicine client group, meeting regularly to discuss options and opportunities for an improved selection process. The result of our efforts produced a clear set of short-term actions to address efficiency gaps for Family Medicine programs.

**IMPROVING THE CLIENT EXPERIENCE**

COVID-19 impacted all of our client groups in profound and different ways, fundamentally changing some critical processes for many. One thing COVID-19 did not change is CaRMS’ commitment to continually improving our online platform and services. Over 2020, CaRMS actively worked with our clients to identify opportunities and better understand their needs as they pertain to our system and services.

Some of the improvements we rolled out for the opening of the 2021 cycle include program administrator management for PGME offices and program directors, a simplified applicant registration process, a streamlined translation process, and automated antivirus protection for documents uploaded to CaRMS Online. We also worked with our clients to introduce new technology that made it easier for faculties and third parties to share information and documents with CaRMS. Finally, we worked with provincial bodies to standardize provincial eligibility criteria posted on carms.ca to make it easier for applicants to understand and compare requirements across different provinces.

CaRMS launched a new Interview Offer Status Notification module in CaRMS Online, providing applicants a clear interview offer status and one ‘source of truth’ during a stressful time. While the system fulfilled its goal of reducing risk and uncertainty, it also provided invaluable data related to interview offers. Access to interview offer data from the 2020 R-1, MSM and FM/EM matches.

With a goal of supporting Best Practices in Application and Selection (BPAS) principles, CaRMS also launched enhancements to the program description template in CaRMS Online. These enhancements offered increased clarity and understanding for applicants around program selection criteria. BPAS data will be available in early 2021.

We will continue to engage with clients and stakeholders to identify ways our products and services can improve and enhance their work.

**KEEPING COSTS AS LOW AS POSSIBLE**

Applicant fees remained unchanged from the 2020 match year. This follows two per cent fee reductions for the 2018, 2019 and 2020 R-1 matches, and a fee freeze introduced for 2017. Over the last few years, we have also increased the number of applications included in the R-1 participation fee from four to nine, in response to an upward trend in the average number of program applications submitted Canadian medical graduates. These fee changes reflect our continuing commitment to value for money and responsible financial stewardship. CaRMS is committed to providing exceptional service and value to our clients while ensuring the sustainability of the match well into the future.
2020 MATCH HIGHLIGHTS

R-1 MAIN RESIDENCY MATCH

- 3,341 applicants matched

CONTINUED INTEREST IN FAMILY MEDICINE

- 32.4% of CMGs chose Family Medicine as their first-choice discipline

2,895 Canadian medical graduates (CMGs)

418 international medical graduates (IMGs)

28 United States medical graduates (USMGs)

FAMILY MEDICINE / EMERGENCY MEDICINE MATCH

Recently changed to Family Medicine/Enhanced Skills Match

- 145 matched
- 217 participating

MEDICINE SUBSPECIALITY MATCH

- 498 matched in both first and second iteration
- 94.7% matched to their first choice discipline

- Most popular career choice: General Internal Medicine

FIRST YEAR OF INTERVIEW OFFER DATA

For the 2020 match cycle last year, CaRMS introduced new functionality into CaRMS Online to allow faculties to indicate whether applicants would receive an interview offer. For every application submitted, the applicant received an in-system notification from the program indicating if they had been selected for an interview. First year of interview offer data from the 2020 R-1, MSM and FM/EM matches.

REPORT OF THE INDEPENDENT AUDITOR ON THE SUMMARY FINANCIAL STATEMENT

To the members of Canadian Resident Matching Service

Opinion
The summary financial statement, which comprise the summary statement of revenue sources and uses for the year ended May 31, 2020 and related note, are derived from the complete audited financial statements of Canadian Resident Matching Service (CaRMS) for the year ended May 31, 2020.

In our opinion, the summarized financial statement derived from the audited financial statements of Canadian Resident Matching Service for the year ended May 31, 2020 is a fair summary of those financial statements, in accordance with the basis described in the related note.

Summary Financial Statement
The summary financial statement does not contain all the disclosures required by Canadian accounting standards for not-for-profit organizations. Reading the summary financial statement, therefore, is not a substitute for reading the complete audited financial statements of Canadian Resident Matching Service and the auditor’s report thereon.

The Audited Financial Statements and Our Report Thereon
We expressed an unmodified audit opinion on the audited financial statements in our report dated October 2, 2020.

Management’s Responsibility for the Summary Financial Statement
Management is responsible for the preparation of a summary of the audited financial statement on the basis described in the related note.

Auditor’s Responsibility
Our responsibility is to express an opinion on whether the summary financial statement is a fair summary of the audited financial statements based on our procedures, which were conducted in accordance with Canadian Auditing Standard (CAS) 810, "Engagements to Report on Summary Financial Statements."
